

SEATING PAPER COVERED WIRE ATTACHMENT

CLP 3 CLIPS

Unitising of the springs is the final element of seat suspension. Attaching the paper covered wire that unitises the springs requires a strong and reliable connection to eliminate noise and maintain the seat support over the life of the sofa.

Type CLP-3 Polycord Clips are the strongest wire jointing fastener available. Quick and easy to apply with the Hartco air return clinching tool, it provides the finishing touch to a well constructed seat, adding value both to the product and to the production process.
